Summary

Computer Engineering student with core expertise in Web Development, Python, and Cybersecurity. Certified in Data Analytics from CDAC, with hands-on experience in building web applications and analytical solutions. Completed a cybersecurity internship focused on vulnerability assessment. Seeking to apply technical expertise in Data Analytics and Web Applications.

Skills

- **Programming & Frameworks:** Python, C, C++, Java, Flask, React
- **Web Dev:** JavaScript, HTML, CSS, Bootstrap, Tailwind CSS
- **Database & Data Analytics:** MySQL Workbench, Power BI, Matplotlib, Excel
- **API & Data Handling:** Postman, Web Scraping, NLP, Deep Learning (YOLOv8n), Object Detection
- **Cybersecurity Tools:** Burp Suite, Google Dorks, SQLmap, Basic VAPT (XSS, CORS, Rate Limiting), Vulnerability Testing
- **Soft Skills:** Collaboration, Adaptability, Problem-Solving, Quick Learner, Communication

Projects

- **Personal Portfolio Website:** Engineered a professional portfolio website to showcase my projects, leveraging React, Tailwind CSS, and Vite to ensure fast performance.
- **AI Vehicle Damage Classifier System | YOLOv8n:** Developed a fully integrated model using YOLOv8 with Transfer Learning to instantly classify car damage severity (Minor, Moderate, Severe), significantly streamlining the car insurance claim process.
- **Stock Price Notifier:** Built an automated stock price notifier using Python that provides real-time alerts. Utilized web scraping to securely collect live data from the NSE and BSE stock exchanges for real-time processing.
- **Grocery Store Management System:** Developed an Full stack inventory management system with real-time order tracking to streamline operations. The system was designed to improve efficiency and enhance the customer experience.
- **Video Dubber:** Created a real-time video dubbing application with audio syncing. The application improves video editing capabilities and enhances accessibility and uses NLP to translate videos.

Education

B.Tech in Computer Engineering - 2026

Vidyalanakar Institute of Technology , Mumbai

HSC (71%) | JEE Mains (93 percentile) - 2022

New Horizon Public School , Panvel

Experience

Security Analyst Intern | Secure Cyber Future | June – August 2025

- Conducted comprehensive vulnerability testing on a wide range of websites using Burp Suite and Google Dorks, identifying and documenting security flaws like XSS and CORS while providing actionable remediation recommendations.

Smart India Hackathon 2023 - VIT

- Built a video dubbing solution to translate educational videos, which significantly improved accessibility for diverse learners.

Interests & Extracurricular Activities

- **Leadership & Volunteering:** Served as a Core Member for CSI & CESA, where I played a pivotal role in organizing various college-level technical events.
- **Sports & Hobbies:** Participated in professional-level football tournaments, demonstrating teamwork and discipline. Performed as a keyboardist in college band competitions.
